# Debits and Credits

1959 was our first year of full time glad operations. While it hasn't all been a bed of roses -- or should we say gladiolus -- it's been more exciting than anything we've ever done in the past. Excessive rains and hot, humid weather kept us on tenderhooks all season, but we dug an excellent crop in spite of the adverse conditions.

We were elated by the reception our 1959 introductions received. Cattleya, our giant lavender introduction was rated well up in the list of the 10 highest rated large flowered introductions for 1959. In addition Cattleya also won a fistfull of Grand and Reserve Championships. It was, however, in the miniature area that we really hit the Jackpot. All five of our miniature introductions received mention in the small flower Symposium and Domino, Camelot, and Bingo were, respectively, the first, second, and fourth highest rated of the 1959 introductions. It was also gratifying to note the success of our 1958 miniature introductions. Both Parfait and Chocolate Chip lead their respective color classes, the only two recent introductions to do so, and Demi-Tasse came within 3 points of breaking into the top 3 in its color class. In addition, Parfait was the only recent introduction to make the list of the ten best miniatures.

Following the end of the show season we received a letter from Dr. Earl J. Hamilton, the most successful showman in the nation over the past three years, in which he stated that he considered Parfait one of the top 5 show glads regardless of size. He also included a record of his winnings with Parfait during the 1959 season. Considering that Dr. Hamilton had a relatively small planting this record is really amazing:

Grand Champion three spike -- Kentucky State Show  
Grand Champion three spike -- So. Ill. at Edwardsville  
Best Miniature three spike -- Central Ill. at LeRoy  
Reserve Miniature Champion single spike -- Eastern International, L. I.  
Miniature Champion single spike - Indiana State Show  
100-200 Section Champion 3 spike -- Indiana State Show  
Grand Champion single spike -- Momence Gladiolus Festival  
Miniature Champion single spike -- Michigan State Show  
Best Recent Introduction three spike -- Michigan State Show  
Best Recent Introduction single spike -- Central International  
200 R. I. Section Champion three spike -- Central International  
Miniature Champion single spike -- Wisconsin State Show

We feel sure that our 1959 introductions will meet with your approval. We have a total of 16 new ones for you, 5 miniatures and 3 large ones from J. R. and C. T. Larus, 4 miniatures from Lee Fairchild, and 1 miniature and 3 large ones of our own. Although, this represents a pretty large introductory list, we assure you that each has shown outstanding qualities. Several have already established impressive Show records.

We have a large stock of a very beautiful heavily textured ruffled deep yellow that we had intended to offer for sale this year. It is our desire, however, to get a wide distribution of this variety and so with every order of \$10.00 or more we will include not one, but five bulbs of this outstanding yellow. We have named it King Midas -- the only time it has been shown it was seedling champion at the South Jersey show in 1957. Makes 19 to 23 buds on heads of 27" to 30" and opens 7 or 8. We will appreciate receiving your reports on its performance.

SPECIAL -- As an inducement for our customers to join the North American Gladiolus Council, which issues 4 quarterly magazines annually, if your order exceeds \$10.00 and you will include an additional \$2.00 for a one year membership, or \$5.00 for a three year membership, you may select, free of charge, from our general list, bulbs of your choice equal in value to that of your membership -- we suggest you join for three years as we are not likely to repeat this offer. NOTE -- this offer does not include our 1960 introductions.

If you will include the estimated postage required to mail your order we will send you 1960 introductions of our choice worth 2 to 3 times the amount you forward.

Where the each price is given 10 bulbs may be purchased for eight times this price.

# 1960 Introductions

CIMARRON (Larus) 354

92 Days

Cimarron is an unusually good prospect in its size class, having the attributes to make a heavy winner at the shows, due to an ability to consistently open 8 in perfect formal placement. The ruffled 4 1/4" to 4 1/2" florets are medium rose red, shading lighter towards the center and with a small rose purple throat mark. The rugged spikes grow 52" to 57" tall and have 20 to 24 buds on a 25" to 28" flowerhead. No crooking, misplacing, flecking or other faults have appeared in 5 years of testing. Reliable performance and rich color make Cimarron a promising commercial. Pictured on the cover.

L - \$1.00                      M - \$.75                      S - \$.50                      Bblts - 10/\$1.00  
10 Bulbs and 100 Bblts. - \$10.00

HINDUSTAN (Larus) 590

85 Days

Hindustan is from a cross which has produced two other outstanding seedlings; one of these is Comanche Chief, introduced last year, and the other is an un-introduced but widely decorated seedling called Damascus. The color is a pale copper tan with a white throat. A strong consistent grower making spikes 60" tall with flowerheads of 28" to 30". Opens 7 to 8 lightly ruffled 5 1/2" to 6" florets with a total bud count of 21 to 23. An easy grower and a reliable producer of ideal exhibition type spikes. One of the very few tan smokies with really attractive color. Health and propagation are good.

Any size - \$3.00                      1 Bulb and 10 Bblts - \$6.00

CONCERTO (Larus) 454

85 Days

The lightly ruffled 5" florets of Concerto are a beautiful blend of medium rose petals and a conspicuous deep rose throat. Spikes run 58" tall and the husky 29" flowerheads have 21 to 24 buds. Opens 8 to 10 in perfect formal placement. Texture is heavy and keeping and opening qualities when cut tight are good. Unlike most dark colored varieties, it does not spot in the rain. The only fault we have found is that it will fade some if left for 2 days in the hot sun. We predict a great future for Concerto.

Any size - \$3.00                      1 Bulb and 10 Bblts - \$6.00

BAND WAGON (Summerville) 446

80 Days

This Royal Stewart by Spic and Span seedling is truly a pleasure to grow. It is extremely vigorous, making 66" plants with flowerheads of 36" and 10 of 26 buds open at once. The color is a clean light red with white midribs and a small white throat with a

dab of red on it. Placement is formal with no misplacement and good attachment. Has been shown twice and both times has been the highest scoring seedling. Never crooks, is healthy and propagates well. Should be in big demand as a commercial when stock becomes plentiful.

Any size - \$3.00

1 Bulb and 10 Bulblets - \$6.00

#### SYMPHONY (Summerville) 471

75 Days

An exotically beautiful seedling of Caribbean by Blue Devil. The color is lavender blue with a startling deep rose blotch. Opens 10 of 25 buds in formal placement on flowerheads of 28". The Florets are 5" to 5 1/2", lightly ruffled and very wide open. Plant habits are excellent with vigorous growth and making good sizes from bulblets. We have never had a bad bulb. We plant our seedlings early and consequently Symphony has always bloomed out before the shows; we are certain, however, that it will be a winner of top awards when timed to hit the shows. The only fault we have noticed, and it is not a serious one, is a tendency of the florets, from the 7th or 8th up, to face slightly upward. This is easy enough for the exhibitors to correct -- and for any other purpose it is not important.

Any size - \$3.00

1 Bulb & 10 Bblts - \$6.00

#### WILDWOOD (Summerville) 460

88 Days

When the first spike of Wildwood bloomed we knew we really had something. We cut it, held it for four days, and then drove it 250 miles to the Maryland State show on one of the hottest days of the summer; when the judging was over it stood right in the center of the court of Honor just as fresh as the day it was cut. Nick Moffett, New Jersey's leading exhibitor, recently told us that he thinks that that spike was the most perfect he has ever seen. That is high praise from a man who has won 8 Grand Championships in the past 2 years. Growth is extremely vigorous making plants 60" to 66" tall with flowerheads of 32". Opens 8 5" to 5 1/2" precisely ruffled florets with many more in color. Total bud count is 21 to 25. Placement and attachment are excellent. The pure lilac lavender color of this statuesque beauty defies description. Parentage is Princess by Royal Stewart and the finest characteristics of both these varieties seem to have been transmitted.

Any size - \$3.00

1 Bulb & 10 Bblts - \$7.00

#### FLUTTERBY (Larus) 241

80 Days

This vigorous grower resembles its well known sister, Parfait, in many respects, particularly in the neatly ruffled form of butterfly type florets and its reliable growth habits. The buds are a light salmon buff opening to a light pink with a medium rose red

blotch on a cream throat. Spikes are 50" to 60" tall and always straight with 18 to 21 buds on 23" to 27" flowerheads, carrying 7 precisely placed 3 1/2" florets. Should become a leading show glad due to its long and precise spikes.

Any size - \$1.00  
10 S & 100 Bblts - \$15.00

1 Bulb & 10 Bblts - \$2.50

#### PANDA (Larus) 201

80 Days

Here is a real improvement in its color class, both for exhibition and decorative purposes. The lightly ruffled creamy white 3 1/2" florets have a small rose blotch on a pale yellow throat, an attractive combination and a well formed floret. Spikes are uniformly tall, 50" to 58" with a 24" to 27" head and 19 to 22 buds of which 5 to 7 or more are open at once. Its fine growth habits and attractive florets have earned for it an American Home award at Boston in 1956, high scoring miniature at Boston in 1954, and best three spike seedling at the Eastern International in 1959. May well prove to be the leading miniature introduction of 1960.

*Panda*

Any size - \$1.00  
10 S & 100 Bblts - \$15.00

1 Bulb & 10 Bblts - \$2.50

#### SAUCY (Larus) 226

80 Days

As a seedling Saucy has won several awards including: best miniature seedling and miniature champion at Western Mass. in 1955, best miniature seedling, single and 3 spike, South Jersey, and the New Jersey Seedling award in 1958. The striking 3 3/8" florets are a bright salmon orange with a cream lip. Opens 6 of its 17 to 21 buds on heads of 21" to 26". Total plant height is 45" to 50". A good show glad in a weak class but its greatest value

L - \$1.00      M - \$.75      S - \$.50      Bblts - 10/\$1.50  
3 L, 5 M, 5 S, 100 Bblts - \$15.00

Widget has attracted favorable comment wherever it has been shown, primarily because of its unusual and lovely florets. The main color is chartreuse but the ruffled 3 1/2" florets have a medium pink edging around each petal and there is a small light red blotch in the throat. Spikes are 37" to 45" tall with 6 to 7 usually well placed florets open on an 18" to 22" flowerhead with 16 to 18 buds. Show awards include an A minus rating at Western Mass. in 1958, an A rating at Mt. Kisco in 1956, and an A rating and the 1959 seedling award at New Jersey. Should do well at the shows but its greatest potential is in the decorative area.

The person interested in growing exhibition quality spikes should grow Towhead which seems destined to become a heavy winner. The lightly ruffled 3 1/2" florets are creamy yellow, slightly deeper in the throat. Spikes grow 50" to 55" tall and open 6 to 8 perfectly placed florets on a 21 to 23 bud flowerhead of 22" to 25" length. A reliable producer of good straight spikes. Healthy and a good propagator.

This sister of Bingo is bright red edged in black red. It opens up to 9 of its 19 to 23 buds on heads that measure from 21" to 25". Placement and facing are good and the blooms are well attached. Last summer we kept a bouquet of Wing-Ding in our living room throughout its entire blooming period -- and when the bulbs were finished, we cut spikes from bulblets. The graceful little spikes are astonishingly beautiful in a black vase. Extremely rapid propagation has made a low introductory price possible.

Any size -	\$ .50	10/\$4.00	Bblts -	10/\$.75	100/\$5.00
------------	--------	-----------	---------	----------	------------

The following Fairchild varieties have been selected for introduction because of the great appeal they have had for home gardeners and especially for the ladies who want this kind of gladiolus for arrangement use. Each is healthy and a good propagator; each is distinctive and clean in color; each is capable of winning in its color class. These are true small type gladiolus, not runt size flowers on heavy large type spikes. Prices have been kept low to permit a good start because we believe these will be good sellers once they are seen by the public.

FRANCINE (Fairchild) 262

75 Days

In color this is almost a duplicate of the beautiful Francesca; just a touch more rose in its make up, and in small size, of course. Good, well rounded, ruffled florets. May well be better than anything else in the color and size classification.

SILKY (Fairchild) 220

80 Days

A soft blend of salmons and yellows giving the over all effect of buff. Though soft, the coloring is rich and very pleasing. In general the florets face upward, but there is some slight inconsistency in this; not enough, however, to greatly affect the decorative usefulness of this flower.

BARBARA (Fairchild) 280

80 Days

Small smoky tan with a yellow throat. This is especially useful as an arrangement gladiolus. It is rather easily grown to winning proportions. Will be a great favorite with the general public.

MISS KITTY (Fairchild) 290

75 Days

Smooth color in a rusty shade, almost a deep burnished copper. Florets are well opened, and while it is not a real face-up the flowers do look you right in the eye. Just enough ruffling to add an extra touch of daintiness. Comes nearest of any gladiolus in existence to matching the colors found in some of the new copper toned iris that are so popular.

All the above are priced the same.

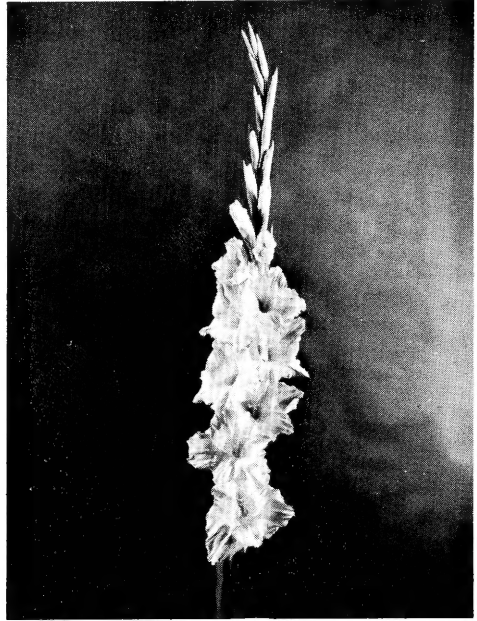

Any size - \$.75	10/\$6.00	Bblts - 10/\$1.00	100/\$8.00
1 bulb of each - \$2.50	3 bulbs of each - \$9.00		

Each year we grow many seedlings on trial. We were particularly impressed by two of Carl Fischer's and have asked for and received permission to co-introduce them. Both of these have received the All-America Approval Award.

GOLDEN GLO (Fischer)  
416

Golden Glo is a brilliant, deep golden yellow of leathery substance, heavily ruffled and unusually tall and robust. A scintillating 400 size yellow that will impress your neighbors. The ideal landscape gladiolus in the ideal landscape color. Our own spikes of Golden Glo stood 6' tall in the field with heads of 30" to 32" and long handles. Opens 7 to 8 and will be hard to beat in its class.

Any size - \$.50  
10/\$4.00

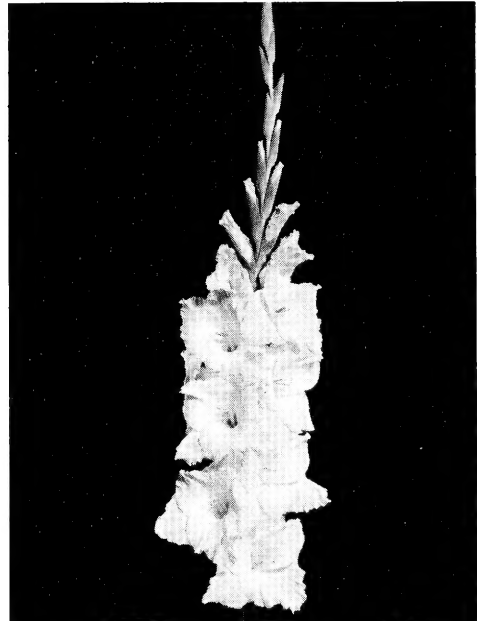

*Golden Glo*

LOVE SONG (Fischer)  
440

An exquisite rosy-pink that tugs at the heart strings of the beholder. A gladiolus to start you singing its praises, for its attributes are many: tall, straight plants, with fine, formal spikes of 20 or more buds having 7-8 open. Vigorous and consistent. A really great variety! A cut-flower grower's dream come true!

Any size - \$.50  
10/\$4.00

*Love Song*

# General List

A. B. COUTTS (Coutts '53) 520 85 Days  
 Giant exhibition buff. Can open 10 of 26 buds on a 36" head.  
 L - 10/\$2.00

ANGEL'S SERENADE (White '55) 410 80 Days  
 Closer to white than cream -- opens 6 or 7 heavily ruffled  
 florets on spikes of moderate proportions. Extremely beautiful  
 and fault free except for occasional loose attachment. We highly  
 recommend it.  
 L - 10/\$2.00 M - 10/\$1.20 S - 10/\$.80

ARCTIC BEAUTY (Warr '59) 400 80 Days  
 While we won't go along with the introductory claim that this  
 is a super variety nor that it is the greatest white of the era, it  
 does have commercial value due to its pure white color. Florets  
 are rather plain and informally placed. Opens 7 of 23 or more  
 buds on a long head.  
 L - \$2.00 M - \$1.25 S - \$.75 Bblts - 10/\$1.00

ARES ( K & M '54) 311 75 Days  
 One of the top 300 size glads, and an almost constant mem-  
 ber of the court of honor. Ruffled cream with a large scarlet  
 blotch. Opens up to 8 in perfect placement on long heads carrying  
 23 or more buds.  
 L - 10/\$2.00 M - 10/\$1.50

AVENGER (Pehrson '55) 448 78 Days  
 Glistening velvet red with a tiny cream throat. A glad of  
 excellent habits and a very beautiful color. Try it and see if you  
 don't agree with us that Avenger is a very much overlooked glad.  
 L - \$.50 M - \$.35 S - \$.25 Bblts - 15/\$.50

BEAUTIBLEND (Fairchild '59) 354 85 Days  
 Tall growing medium size glad. Florets are round, heavily  
 ruffled, and crinkled to the extent that it has been referred to as  
 "carnation type". Color is a blending of light pinks and medium  
 roses. Easily makes 24 bud spikes with heads of 27" and 8 open.  
 Healthy and a good propagator.  
 L - \$.75 M - \$.50 S - \$.25 Bblts - 10/\$.75

BEAUTY ROSE (Puerner '57) 454 88 Days  
 Smooth medium rose sport of King David. Habits are identical  
 to its parent except that it has heavier texture. We get top per-

formance from Beauty Rose and we assure you it is capable of winning top awards.

L - \$.40            M - \$.30            S - \$.20            Bblts - 15/\$.35

BELLEVUE (Heaton '54) 400 65 Days

Friendship sport identical to Bow Bells, Confession, and White Friendship. Truly a wonderful glad.

L - 10/\$2.00            M - 10/\$1.50            S - 10/\$1.00

BLUE PETER (White '56) 472 100 Days

Probably the best of the large dark blues. Grows tall and much straighter than Salmon's Sensation. Opens 8 on long 25 bud spikes. Color is deep violet without too much of the muddiness usually found in the blues.

L - \$.75            M - \$.50            S - \$.25            Bblts - 10/\$.50

BLUE SMOKE (Rich '57) 586 80 Days

Doc Eppig calls this "the only smokey I ever liked". Heavily ruffled Mulberry blue with a throat blotch of Smokey Salmon. Large bulbs produce 30" heads with 21-23 buds. 1960 should be a big year for Blue Smoke; better get on the "Band Wagon".

L - \$.75            M - \$.50            S - \$.25            Bblts - 10/\$.75

BOW BELLS (Medford) 400 65 Days

Complete description appears under White Friendship. While we have maintained separate stocks of Bow Bells, Bellevue, and White Friendship, they are identical in every respect.

L - 10/\$2.00            M - 10/\$1.50            S - 10/\$1.00

BROWN LULLABY (Pazderski '57) 496 88 Days

A beautiful and distinctive glad that causes a sensation wherever it is shown. We bloomed Brown Lullaby in quantity this past summer and liked it better than ever. Number one in its class in the 1959 Symposium, the color is light mahogany brown with a red feather in the throat and a silver edging around the petals. If the heads were a bit longer it would be about perfect. Opens up to 11 of its 19 buds at once.

L - \$.50            M - \$.35            S - \$.25            Bblts - 15/\$.50

BULL MARKET (Fairchild '59) 586 75 Days

Spikes from large bulbs will stand consistently over 6' tall. The color is smokey rose. Produces 36" heads with 25 buds and

up to 9 6 1/2" to 7" florets open at once. A real giant and the exhibitor's dream. Should be of value to hybridizer's as it never produces side spikes.

L - \$2.00      M - \$1.50      S - \$1.00      Bblts - 10/\$2.00

#### CARVED IVORY (Fischer '56) 310

80 Days

One of the most beautiful varieties on our list -- and an excellent show glad as well. Opens 7 of 17 buds on well proportioned heads. The color is a warm cream and the ruffling is exquisite. Really grand!

L - 10/\$2.00      M - 10/\$1.20      10/\$.80      Bblts - 25/\$.50

#### CATTLEYA (Larus '59) 560

85 Days

Although introduced with very little ballyhoo, Cattleya won 3 Grand Championships and 2 Reserve Championships in its introductory year. Also made the NAGC Symposium list of the 10 leading 1959 introductions. Easily the best show glad in the lavender class. Opens 8 to 10 5 1/2" florets in perfect formal placement on heads of 28" to 33". Carries 21 to 25 buds. Rapid propagator and blooms well even from #6's. Should make the grade commercially. One of our best introductions to date.

L - \$1.00      M - \$.75      S - \$.50      Bblts - 10/\$1.00

#### CAMPFIRE GLOW (Jack '59) 583

88 Days

A giant salmon smokey with a striking scarlet blotch and 6" florets. Spikes are 5' tall with a 30" flowerhead and 8 open. A very attractive smokey and an excellent propagator.

L - \$1.50      M - \$1.00      S - \$.75      Bblts - 10/\$2.00

#### CHAMPION (Ficht '57) 410

85 Days

So far Champion hasn't been the easy growing glad we'd like it to be. Foliage of this variety tends to turn yellow, much the same as does Patrol's. With a little extra care and attention, however, it will make a long head and open 10 of its 21-23 buds. Certainly worth a try.

L - \$.60      M - \$.40      S - \$.25      Bblts - 15/\$.50

#### COMANCHE CHIEF (Larus '59) 497

80 Days

The first of three outstanding sister seedlings to reach the public. Very clean mulberry brown with a white diamond in the throat. Makes heads well in excess of 30" with 21 or more buds and up to 9 open.

L - \$1.50      M - \$1.00      S - \$.50      Bblts - 10/\$1.00

CONGO (Lins '56) 558

90 Days

Heavy texture black red considered by many to be the best in its class. Opens up to 8 with an equal number in color on a well proportioned 23 bud spike.

L - \$.75                  M - \$.50                  S - \$.25                  Bblts - 10/\$.75

CORAL ROSE (Harris '57) 454

85 Days

Light rose with some deeper lines in the throat. A giant that is capable of going all the way to the court of honor. Opens 8 of its 22 buds on heads that go 30" or more. Heavily textured and ruffled.

L - \$.75                  M - \$.50                  S - \$.25                  Bblts - 10/\$.75

CORONATION (Murray '56) 440

88 Days

Coronation is in our opinion the most beautiful of the tivoli shade of pinks. Opens 7 of its 21 buds on heads of 27". It requires a little special attention to get the best from this variety but the results are well worth the trouble. Opens well when cut.

L - \$.40                  M - \$.30                  S - \$.20                  Bblts - 15/\$.50

COUNTESS (Larus '57) 440                  80 Days

Produces 28" to 36" heads with up to 9 of 23 to 25 buds open. Color is light pink with some cream in the throat and florets are ruffled and of heavy texture. Should make an outstanding commercial and its show potential is limitless.

L - \$.40                  M - \$.30                  S - \$.20

Bblts - 24/\$.50

CRONUS (Rupert '58) 326                  90 Days

Sensational new medium size glad that appears destined to become one of the top show varieties. The color is true orange with a deep cream to light yellow throat. Opens 8 on long heads of 21 or more buds.

L - \$1.50                  M - \$1.00                  S - \$.75

Bblts - 10/\$1.00

DARK BRILLIANCE (Puerner '56) 454

88 Days

Identical in every way but color to King David from which it sported. The color is velvety black red. With 8 to 10 of its 23 buds open at once Dark Brilliance will be a top contender for show honors. We personally prefer Dark Brilliance to its parent.

L - 10/\$2.00    M - 10/\$1.20    S - 10/\$.80

Bblts - 50/\$.50

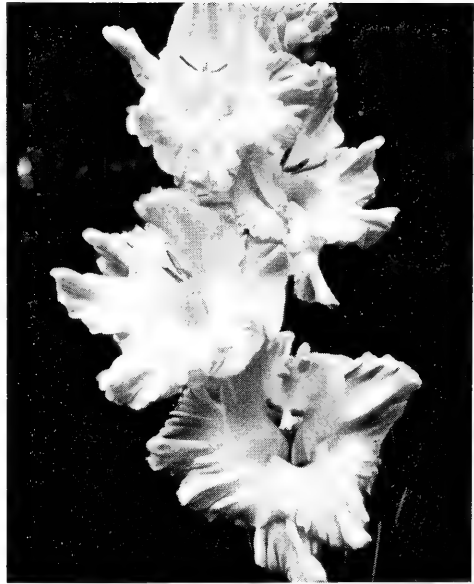

*Countess*

DIMPLES (Rohrback '58) 340

85 Days

One of the most heavily and exquisitely ruffled of all glads, and with a perfection of color to match. Beautiful pure pink with a white throat. Opens 7 of 17-19 buds on heads of moderate length. A must have for the connoisseur.

L - \$.50                      M - \$.40  
S - \$.25                      Bblts - 10/\$.50

*Dimples*

DIVIDEND (Fairchild '59)

415                      85 Days

This beautiful Dieppe sport is ivory yellow with a flashy red throat. Spike formation and growth habits similar to those of its

parent. Healthy, reliable, and a really exciting color combination. Makes a real show spike with up to 9 of its 23 buds wide open.

L - \$.50                      M - \$.35                      S - \$.25                      Bblts - 10/\$.50

DIRECTOR (Roberts '56) 456

95 Days

A deep brownish ruffled rose that continues to perform well. Our large bulbs have produced as many as 28 buds with 11 open. Placement is formal - an ideal exhibition variety. We have seen flecking in the past, but had none in 1958 or 59. Plant it early and it'll give the top varieties a run for their money at the shows.

L - \$1.00                      M - \$.60                      S - \$.40                      Bblts - 10/\$.60

FAIRY BEAUTY (Jack '58) 360

78 Days

A beautifully ruffled light rose, shading to light lavender on the edges of the petals, with a cream throat. Grows up to 63" with 22 buds of which 9-10 will open at once. A fine exhibition and cut flower variety. Rapid propagator with good bulblet growth.

L - \$.60                      M - \$.40                      S - \$.30                      Bblts - 10/\$.50

FIREFLAME (Rich '58) 436

75 Days

A brilliant orange scarlet that is quite early. Opens 8 of its ruffled florets at once with most of the remaining 22 buds in color. Heads run 25" to 27" with attachment and facing good.

L - \$.75                      M - \$.50                      S - \$.25                      Bblts - 10/\$.75

FLORADORA (Kydd '57) 410 85 Days

For the past three years Floradora has been racking up championships in Canada and now it promises to do the same in the U.S.A. Has been G. C. at the last two Burholme shows in Philadelphia. A variety of tremendous vigor producing 30" spikes with 24 buds and up to 8 lightly ruffled cream florets open at once.

L - \$.75                      M - \$.50                      S - \$.25                      Bblts - 10/\$.50

GARNET RUFFLES (Maynard '53) 348 85 Days

A very fine deep crimson with a velvety finish. Capable of opening nine on a long well proportioned head that will carry 21 or more buds. We recommend this one very highly.

L - 10/\$2.00                      M - 10/\$1.20                      S - 10/\$.80

GARY (Harris '57) 414 75 Days

Tall rugged grower from all sizes including bulblets. Grows to a height of 55" and opens 8 of 21 buds on heads of good length. Has good keeping qualities and looks fresh even after a day in the hot sun. Makes very clean looking bulbs. We recommend that you give Gary a trial.

L - \$.40                      M - \$.30                      S - \$.20                      Bblts - 15/\$.50

GAY PAREE (Woods '57) 454 75 Days

Best of the Chamouny type glads by far. Bright rose, with a silver edging and fushia spears in the throat. Opens 8 in good placement on long heads with 23 buds. The 6" florets are ruffled and needlepoint. In our own opinion this is Woods' best since Connie G.

L - \$.35                      M - \$.25                      S - \$.15                      Bblts - 15/\$.50

GEM STATE (Roberts '57) 343 95 Days

Gem State is one of the few 300 size glads capable of beating the big ones. In order to get it to the shows, however, you will have to plant it very early. Medium pink with a white lip. The white is generally clean but occasionally there is some color bleeding. Opens up to 12 or more of its 25 buds on very long straight heads.

L - \$1.25                      M - \$.75                      S - \$.50                      Bblts - 10/\$.75

GOLDEN BOY (Secrest '54) 316 80 Days

The best in its class and one of the best in the medium division. Grand Champ in stiff competition at the 1958 So. Jersey show. Makes long perfectly proportioned spikes with up to 9 of 23-25 buds open at once. Color is bright clean yellow with no markings.

L - 10/\$2.00                      M - 10/\$1.20                      S - 10/\$.80

GOLDEN HARVEST (Butt '56) 416 70 Days

Good deep yellow commercial type that blooms early. Opens 7 of 26 buds on a well proportioned head with a good cutting stem under it. Florets are lightly ruffled and well attached. Bulbulet production is heavy.

L - 10/\$2.00 M - 10/\$1.50 S - 10/\$1.00

GOLDEN PALOMINO (Summerville '56) 420 80 Days

Now that Golden Palomino is down in price we expect it will be grown in quantity commercially. Highest rated recent introduction in its class for either commercial or exhibition use according to the 1959 NAGC variety symposium. Capable of opening 9 of 25 buds on heads of 30". Florists love the color combination -- apricot buff with small orange throat mark.

L - 10/\$2.00 M - 10/\$1.20 S - 10/\$.80

GLACIER (Arenius '59) 400 90 Days

One of the top introductions of 1959. Clean beautifully ruffled white -- about as white as any glad we know, even to the stamens. Won several major awards in our local area. An ability to open 7 to 9 or more of its 21 to 24 buds in perfect placement assure Glacier of a bright future. Should make a first class cut flower.

L - \$.50 M - \$.35 S - \$.25

GOLDEN SUNSHINE (Fischer '57) 412 90 Days

Spikes of Golden Sunshine stand 5 feet tall on as husky a plant as you'd ever want to see. Opens 8 heavy textured florets in formal placement on heads of 21-23 buds. The clean deep yellow color is superb. Requires young stock for best performance.

L - \$.25 M - \$.20 S - 10/\$1.00

GOOD MORNING (Lacey '54) 550 85 Days

An extremely vigorous glad with a very definite commercial future. Makes long flowerheads with 8 of 19 buds open and 7 more in color. In wet weather it tends to show its rose halo as heavy flecking. In dryer weather it comes clean as a whistle. A more colorful Corona type with a soft rose throat.

L - 10+\$1.50 M - 10/\$1.00 S - 10/\$.60

GOLDEN MIRACLE (Barrett '59) 416 90 Days

Based on an admittedly small planting Golden Miracle would seem to be the finest deep yellow and very likely may prove to be the outstanding introduction of its year. Opens 7 or 8 heavily ruffled florets on a 24 bud spike. Head length and balance are excellent. Beautiful beyond description.

L - \$1.50 M - \$1.25 S - \$.75 Bblts - 10/\$1.50

GREEN ICE (Barker '57) 404 75 Days

Grown from large bulbs, Green Ice is capable of producing Grand Champion Caliber spikes. Makes long stretchy heads of 30" with 8 to 10 of its 23 buds opening at once. The foliage yellows early but bulbs dig healthy. About the color of lime ice. Doesn't seem to appeal to our florists at all.

L - \$.50            M - \$.40            S - \$.25            Bblts - 20/\$.50

GREEN WOODPECKER (K & M '58) 305 70 Days

The color is somewhat more definitely green than that of Green Ice -- in fact, in our estimation, Green Woodpecker is a better all around variety. Florets are lime green with wine red blotches on the lower two petals. Makes heads of 27" with 7 of its 21 buds wide open. Heavily textured, lightly ruffled, and has raised midribs.

L - \$1.00            M - \$.60            S - \$.40            Bblts - 10/\$.50

GUNSMOKE (Fischer '57) 483 80 Days

This is one of the best of the Smokeys. The color, while classed as smokey salmon, is actually a light brown and is unusually clean. Opens up to 8 on a 20 bud head of better than average stretch. Grows well and is healthy.

L - 10/\$2.00    M - 10/\$1.20    S - 10/\$.80    Bblts - 25/\$.50

HEARTS IN SNOW (Van Voorhis '56) 501 100 Days

One of the most eye-catching glads in our list. Snow white with a large bright red blotch. Opens 6 5 1/2" ruffled and heavy textured florets on a 27" head of about 21 buds. Plants grow tall and straight and are very vigorous and healthy. Stock extremely limited due to total loss of originator's stock.

L - \$1.00            M - \$.75            S - \$.50            Bblts - 10/\$1.00

HILLTOPPER (Fairchild '55) 446 85 Days

Large bulb produces 30" head with 8 of 25 buds open at once in formal placement. A good show glad but health problems limit its value commercially. We have a very limited number of jumbos.

L - 10/\$2.00

HIT PARADE (Lins '57) 364 70 Days

Clean deep lavender with a lighter throat. Opens 8 nicely ruffled florets on a long 28" head with plenty of buds. Our florists liked Hit Parade and it will undoubtedly prove to be a good local cut flower. Florets are probably a bit too small to cut tight and ship any distance.

L - \$.50            M - \$.30            S - \$.15            Bblts - 20/\$.50

# INNOCENCE (Fischer '57) 454

70 Days

A very beautiful light rose pink that is at its best under artificial light. Florists can't get enough of Innocence. Makes tall spikes with long cutting stems. A small percentage of crooks -- but not a serious problem. Opens 8 of 21 buds.

L - 10/\$2.00    M - 10/\$1.20    S - 10/\$.80    Bblts - 25/\$.50

# IVORY TOWER (Lacey '59) 410

85 Days

Ivory Tower is a full sister of Snow Garland. Florets are somewhat larger and cream in color, otherwise it is quite similar. Opens 10 on a long head. Placement and attachment are excellent. Tends to be a bit short in the handle but in all other respects a top show prospect.

L - \$2.00    M - \$1.50    S - \$1.00    Bblts - 10/\$1.50

# JUBILEE (Flad '55) 411

80 Days

Probably the most beautiful of all the Corona type glads. Nine open on a 23 bud spike is not at all uncommon. Heads are plenty long but cutting stem tends to be a trifle short. Spikes sell on sight. A good propagator. Somewhat erratic in performance.

L - \$.35    M - \$.25    S - 10/\$1.00    Bblts - 25/\$.50

# KINGS RANSOM (Rice '58) 414

95 Days

Flowerheads from large bulbs will run 30" with 8 of its 21 to 23 buds open. Color is light yellow and the florets are lightly ruffled. Compiled an excellent record in the Ohio area as a seedling. At its best in hot dry weather. Foliage habits are not the best as leaves tend to bend over and thus become susceptible to infection.

L - \$.50    M - \$.40    S - \$.25    Bblts - 10/\$.50

# LARCHMONT (Woods '56) 400

80 Days

A pure white of great beauty! Makes long heads of 28" and opens up to 8 or more ruffled, fluted and needle point florets -- total bud count is about 21-23. Susceptible to botrytis but otherwise fine. Seedling Champ at the '55 Central International.

L - \$.40    M - \$.25    Bblts - 25/\$.50

# LAVENDER BLUE (Henderson '53) 576

80 Days

Pale lavender blue sport of a tall strain of Eliz. the Queen. Has done well for us. Opens 7 to 9 of its 21 buds on heads of 27". We always sell out of this variety early.

L - 10/\$2.00    M - 10/\$1.50    S - 10/\$1.00

LIBERTY (Larus '53) 432 90 Days

One of the greatest exhibition varieties of all time. J. Howard Cook rates it #1 on his list of 10 best. Easily produces 30" flower-heads with up to 25 buds and 10 open in perfect placement. The color is bright orange salmon and florets are plain petaled. We think we have sufficient stock to supply the demand this year, but we suggest you order early to avoid possible disappointment.

L - \$.40                      M - \$.30                      S - \$.20                      Bblts - 10/\$.40

LOHENGRIN (Klein '59) 460 87 Days

One of the top cut flower introductions of recent years, and one that will win its share of ribbons. Grows 5' tall with a 30" head and 25 buds of which 7 or 8 will open at once. The color is blue lavender with a white throat. Placement is somewhat informal and florets are ruffled. Very prolific and germination is 100%.

L - \$1.50                      M - \$1.00                      S - \$.75                      Bblts - 10/\$1.00

LORELEI (Howell '55) 510 80 Days

Great for any purpose. Opens 7 to 9 of its 16 to 21 buds with most of the rest in color. Tops its class in the Symposium for both exhibition and commercial use.

L - 10/\$1.30                      M - 10/\$.85                      S - 10/\$.50                      Bblts - 100/\$.50

LUSTROUS (Roberts '58) 530 85 Days

Per Roberts, "Glowing medium shade of pinkish salmon that shades to a throat of bright cream yellow. Extremely frilled and ruffled, it will open from 8 to 10 large waxy florets on quite tall stems. A rare beauty."

L - \$2.50                      M - \$2.00                      S - \$1.50                      Bblts 10/\$2.00

MARCO POLO (Harris '57) 511 85 Days

Opens 8 off-cream florets on heads in excess of 30" that carry 25 buds. Makes ideal exhibition type spikes but the color is quite poor.

L - \$.60                      M - \$.40                      S - \$.20                      Bblts - 15/\$.50

MARJORIE NADEAN (Blanden '58) 542 80 Days

Said to be the most outstanding variety ever to come from Australia. Described by the introducer as a giant Boise Belle opening 8 to 10 ruffled florets on a straight tall spike with 20 to 24 buds nearly all showing color at once. Field height 54" to 60". Ideal formal placement and excellent attachment.

M - \$2.00                      S - \$1.00                      Bblts - 10/\$3.00

MAYDAY (Roberts '56) 443 83 Days

In our opinion, one of Roberts' finest. The color is medium pink with a large clean white throat and lip petals that are edged pink. Heavily ruffled and of heavy texture. Sometimes has a loosely attached first floret. Opens 6 to 8 on plants and heads of medium length. A real beauty that should be in everyone's garden.  
L - \$1.00      M - \$.60      S - \$.40      Bblts - 10/\$.60

MERRY MELODY (Lacey '58) 534 80 Days

Deep pink with a deeper pink feathering on an inconspicuous deep cream center. Somewhat darker than Picardy but otherwise very similar. Opens 6 or 7 and prefers hot, dry weather.  
L - 10/\$2.00      M - 10/\$1.50      S - 10/\$1.00

NEW SNOW (Jack '58) 400 80 Days

In our opinion this was one of the top 1958 introductions -- similar to Snowdrift but with better placement, wider open florets and lacking the pink blush that Snowdrift frequently has. Opens 8 to 10 of 24 buds on a 30" head. Florets are heavy textured and ruffled. The color is clean white with some cream in the throat.  
L - \$1.00      M - \$.75      S - \$.50      Bblts - 10/\$1.50

ORCHID GEM (Lacey '59) 350 85 Days

Clear orchid pink with a little cream in the throat. Opens 10 to 12 frilled and ruffled florets on a long graceful 24 bud flower-head. Does exceptionally well in hot dry weather, but will sometimes fleck under cool wet conditions.  
L - \$1.50      M - \$1.00      S - \$.75      Bblts - 10/\$1.00

OSCAR (K & M '58) 548 85 Days

Deep red with a peppering of cream in the throat. Very tall vigorous plants produce 30" flowerheads with 21-23 buds and 8 open at once. The 6 1/4" florets are plain petaled. Received a top rating from the Ohio test garden and Sydney Mode rated it the best dark red during the 1959 season.  
L - \$2.00      M - \$1.50      S - \$1.00      Bblts - 10/\$1.50

PACEMAKER (Jack '58) 442 85 Days

A ruffled medium pink, shading lighter to the center with a cream lip. Makes tall spikes with 22 buds and 9 or 10 open.  
L - \$.60      M - \$.40      S - \$.30      Bblts - 10/\$.60

PARTY RUFFLES (Rich '57) 410 85 Days

Very heavily ruffled cream that is usually blushed with pink. Has as heavy texture as any glad we know. Makes heads of moderate length with 8 of its 21 buds open at once. Very heavily ruffled.

Extra fancy; under ideal conditions it will produce the long head required for show purposes.

L - \$.60            M - \$.40            S - \$.25            Bblts - 10/\$.50

POLAR BEAR (Evans '58) 500 87 Days

A sensational show glad -- but unless its health improves, which is doubtful, we will not list it again.

POLAR CAP (Kydd '59) 300 80 Days

Beautifully ruffled pure white that opens 8 informal placement. Heads run about 24" with 20 buds. We liked this one very much and feel sure you will too.

L - \$.75            M - \$.50            S - \$.25            Bblts - 10/\$.75

PROFILE (Flad '58) 451 85 Days

One of Flads very best. Clean light rose with a large light yellow throat that is unmarked. Extremely heavily textured and nicely ruffled. Opens 7 of its 21-23 buds on a head of 27". One of our top favorites and we are sure you will be equally fond of it.

L - \$1.25            M - \$.75            S - \$.50            Bblts - 10/\$1.00

REDCOAT (Jack '57) 446 85 Days

Redcoat is very rapidly overtaking Royal Stewart in the Symposium ratings. Opens 8 in semi-formal placement on 30" to 33" heads carrying 25 buds. A vigorous grower from all sizes of bulbs, but difficult to grow from bulblets. Florets are ruffled and wide open. The clean shade of light to medium red is exceptionally attractive.

L - \$.40            M - \$.25            S - 10/\$1.00            Bblts - 15/\$.50

RHAPSODY (Roberts '58) 561 82 Days

Winston Roberts' description, with which we concur, reads, "Lovely blue lavender with a generous splashing of creamy yellow on portions of all petals. A narrow lavender pencil line outlines the edges of the top and lip petals. Opens 7 or 8 large, frilled and fluted flowers on tall stems. Rhapsody is a very different and showy variety."

L - \$2.00            M - \$1.50            S - \$1.00            Bblts - 10/\$1.50

ROSA (Flad '57) 454 75 Days

An early medium to deep rose. An easy grower that blooms early and should make a first class commercial. Florets are nicely ruffled and well attached. Opens 6 to 7 on a 21 bud, 27" head. We think very highly of Rosa and recommend that you try it.

L - 10/\$2.00    M - 10/\$1.50    S - 10/\$1.00    Bblts - 25/\$.50

**ROSEDENE (Warr '59) 454**

65 Days

Introduced as a cut flower prospect. Heavily ruffled pure medium rose with a clean white throat. The 4 1/2" florets are needlepoint and well attached on 26" heads with 20 to 22 buds. Blooms very early, is healthy, vigorous and a good propagator.

L - \$1.00      M - \$.75      S - \$.50      Bblts - 10/\$.75

**ROSE LACE (Jack '59) 354**

70 Days

Medium rose with a cream picotee edge and a deep cream lip feathered deeper rose. Spikes grow 5 1/2' tall with 31" heads and 10 open. Valuable as a cut flower because of its earliness.

L - \$1.00      M - \$.75      S - \$.50      Bblts - 10/\$1.00

**ROSE SPIRE (Fischer '57) 460**

75 Days

We have been sold on Rose Spire since we first bloomed it as a seedling. It is presently being grown in quantity for the Florida cut flower trade. Makes tall straight spikes with 8 open on heads of 30" and plenty of buds. Beautiful bright rose blending to an almost white throat.

L - 10/\$2.00      M - 10/\$1.50      S - 10/\$1.00      Bblts - 25/\$.50

**SABLE (Lins '55) 366**

90 Days

A sculptured beauty in clean unmarked deep purple. Florets are ruffled, heavy textured, round, and wide open. Opens 8 or more of its 21-23 buds on heads of 28". Has been better each year for us. One of the top medium size glads.

L - 10/\$2.00      M - 10/\$1.50      S - 10/\$1.00      Bblts - 25/\$.50

**SALMON CRINKLES (Rohrbach '58) 330**

75 Days

Although we introduced S. C. with very little fanfare it has already begun to make a name for itself. Opens up to 7 heavily ruffled and textured florets on a well balanced flower-head carrying about 19 or 20 buds. The color is soft light Salmon and there are some inconspicuous throat markings. Good behavior plus an early blooming date make this a desirable

*Salmon Crinkles*

Commercial, L - \$.50      M - \$.40      S - 10/\$2.00      Bblts - 10/\$.50

**SALMON QUEEN (Schrenck '55) 534****80 Days**

Truly one of the great all-time show glads. Opens up to 11 formally placed ruffled florets with most of the rest of its 21 or more buds in color. Flowerheads exceed 30" and are straight as an arrow. The concensus of reports from growers indicates that health has become a problem.

L - \$.40            M - \$.30            S - \$.20            Bblts - 15/\$.50

**SISTER PERLEY (Samis '59) 440****85 Days**

Per introductory description "Clear shell pink consistently producing ideal formal spikes. Easily opens 10 on long heads". Has an excellent show record as a seedling including several Grand Championships.

L - \$2.00            M - \$1.25            S - \$.75            Bblts - 10/\$1.00

**SNOW GARLAND (Lacey '59) 400****85 Days**

Very beautiful heavily ruffled new white that opens up to 12 of its 21 buds on heads measuring 24" to 27". An excellent cut flower that sells on sight. As Winston Roberts says, "about the ultimate in a ruffled white Gladiolus".

L - \$2.00            M - \$1.50            S - \$1.00            Bblts - 10/\$1.50

**SNOW VELVET (Fischer '56) 400****85 Days**

A soft velvety white with no other color. Seems to get better each season. Makes immaculate spikes with up to eleven of its 27 to 29 buds open at once. Occasionally a floret will misplace, and there is not enough separation between the bud tips; these faults are not serious however, as born out by the fact that it wins several grand champs each year. A rather short cutting stem will handicap Snow Velvet in the commercial field.

L - 10/\$2.00            M - 10/\$1.20            S - 10/\$.80            Bblts - 25/\$.50

**SOUTHERN CROSS (Roberts '58) 445**

Deep watermelon pink with twin throat spots of red bordered by white and with white midribs. Opens 7 lightly ruffled florets on moderate height plants.

L - \$1.50            M - \$1.00            S - \$.60            Bblts - 10/\$1.00

**STRING OF PEARLS (Lacey '58) 511****80 Days**

Cream with a subdued rose feather on a deeper cream throat. Opens up to 7 large florets on long heads with 23-25 buds. Keeps well and opens from tight bud. Placement and attachment are very good.

L - 10/\$2.00            M - 10/\$1.60            S - 10/\$1.20            Bblts - 25/\$.50

SUGAR ELL (Vennard '59) 434 95 Days

A real giant of a glad, easily grows 500 size for us. Our entire row of planting stock grew 6' tall. Opens 5 to 7 on 32" heads with 21 buds. While not really an exhibition type glad it will win its share of blue ribbons. Received more points in the recent NAGC Symposiums commercial section than any other 1959 introduction. Any size - \$.40 6/\$2.00 10/\$3.50 Bblts - 15/\$.50

TARGET (Larus '57) 441 82 Days

Certainly one of the top blotched varieties. The color is a light pink spectacularly blotched light red. Opens 7 on a long 27" to 30" head carrying 18 to 20 buds. Target is finding favor with the cut flower growers as it has displayed a remarkable ability to open well when cut tight.

L - \$.40 M - \$.30 S - \$.20 Bblts - 15/\$.50

TEMPTRESS (Fairchild '57) 440 85 Days

Temptress, our 1957 introduction, has, in the most recent symposium ratings, replaced Ethereal as the top light pink exhibition variety. A very vigorous variety that grows 60" tall with flowerheads of 30" or more and carrying as many as 26 buds of which 9 will open at once. During 1959 Temptress added several grand championships to her already long list of winnings.

L - \$.50 M - \$.40 S - \$.25 Bblts - 10/\$.50

TIGERTONE (Fairchild '57) 326 70 Days

Tigertone is a medium sized glad of unbelievable beauty in a deep shade of orange red. Opens 7 or 8 well placed florets on a head of 25" with 17 to 20 buds. Perfection of form and clarity of color make this one tough to beat in its class. One of our favorites.

L - \$.50 M - \$.40 S - \$.25 Bblts - 10/\$.50

TOP HAT (Rich '58) 458 80 Days

The highest rated introduction of 1958. A glistening black red with a 28" to 30" flowerhead. Opens 8 of its total of 23 buds. Plants grew close to 5' tall for us and produced no crooks. The 5 1/2" florets are well attached and of good substance. We noted no burning or fading. Health and propagation have been good here. A highly recommended show glad.

L - \$1.50 M - \$1.00 S - \$.60 Bblts - 10/\$1.50

TOPPER (Graff '57) 560 80 Days

Has made outstanding spikes for us these past few seasons. Opens 7 6" florets in good placement on heads of 28" to 30" with up to 23 buds. The handle is too short for cut flower use but it is

not too difficult to cut it with the 20" length required for exhibition purposes. Health and propagation are good.

L - \$.50            M - \$.40            S - \$.25            Bblts - 10/\$.50

TRAIL BLAZER (Jack '58) 454 90 Days

A unique shade of old rose. The color is very clear and there is a small cream arrow. Opens 7 on a good head of 20 or more buds.

L - \$.60            M - \$.40            S - \$.30            Bblts - 10/\$.60

TRAVELER (Flad '52) 450 78 Days

An easy producer of top quality exhibition spikes and a wonderful commercial as well. Opens 10 of 23 buds on heads of 28" to 30".

L - 10/\$2.00                      M - 10/\$1.50                      S - 10/\$1.00

VERA (Pazderski '53) 460 95 Days

Capable of producing tremendous exhibition spikes -- we have seen Vera with 32" heads with 11 of 25 buds open in almost perfect formal placement. The color is a flawless pale lavender and florets are ruffled.

L - 10/\$2.00    M - 10/\$1.20    S - 10/\$.80    Bblts - 50/\$.50

VIOLET CHARM (Jack '53) 470 85 Days

An outstanding bluish lavender that makes a real ribbon of bloom. Opens 10 or more very formally placed florets on heads of 30". Florets are ruffled and the throats are cream with a violet spear. Best in its class and always a contender for top honors.

L - 10/\$2.00

WEDGEWOOD (Fischer '47) 360 75 Days

Stunt virus has caused most cataloguers to discontinue this variety. We have been most fortunate in locating a strain that has continued to produce the tall easy growing spikes that make Wedgewood famous. Our stock will produce 4 1/2" plants with 25" heads on long cutting stems. Beautiful blue lavender with a yellow throat.

L - 10/\$2.00                      M - 10/\$1.50                      Bblts - 25/\$.50

WITCHING HOUR (Fairchild '54) 471 80 Days

An entrancingly beautiful variety that was introduced on a very limited scale and is still not well known. The color is a translucent light purple with a large clean white throat. Florets are ruffled and wide open. Flowerheads from large and medium

bulbs run about 27" and it will open 7 of its 21 buds. Always straight and perfectly healthy. Don't miss this one -- a glad with a real personality.

L or M - \$.50

S - \$.25

Bblts - 10/\$.50

WHITE FRIENDSHIP (Fischer '59) 400

65 Days

Identical to Bow Bells, Bellevue, and Confession. Pristine white with some cream toward the center and a green glow deep in the throat. Similar to Friendship in form, growth and health. Unquestionably the best commercial white in sight.

L - 10/\$2.00

M - 10/\$1.50

S - 10/\$1.00

Bblts - 20/\$.50

100/\$2.00

WHITE SAILS (Arenius '54) 401

85 Days

Heavy textured and ruffled white with fuchsia throat spears. Builds an impressive exhibition spike with up to 11 open in formal placement on 20-24 bud heads of good length. Always a contender for Grand Champ.

L - 10/\$2.00

WINNEBAGO CHIEF (Himmler '59) 548

75 Days

Another of the leading 1959 introductions. Grows 5 to 6' tall with a 30" flowerhead and 23 buds. Opens 8 5 1/2", well attached and formally placed florets at once. A wonderful exhibition type, but probably has a little too much black in it to ever become a florist's favorite. Deep red with a small deeper mark on the lip petals.

L - \$2.50

M - \$2.00

S - \$1.50

Bblts - 10/\$2.50

YELLOW SPIRE (Arenius '58) 414

85 Days

A clear medium yellow sport of Patrol with identical habits, even to the chlorophyl deficiency of the lower leaves. Can open 9 to 11 5 1/4" florets on a head of 30" with 21 to 23 buds. An exhibition variety of the highest order. With the big price reduction this year, we expect to see a lot of yellow spire on the show table.

# Miniature Glads

ATOM (Hedgecock '46) 236

70 Days

The best known of the small glads. Opens 5 or 6 plain petaled florets on a wiry 15 bud spike. Bright scarlet in color with each petal edged in silver. Just perfect for that small arrangement. L or M - 10/\$1.30

BAMBI (Pierce '54) 204

80 Days

The most unusual of the standard type glads. Deep chartreuse green with a lighter throat and a dotted brownish orange blotch and an edging of the same color around each petal. Fine for both exhibition and decorative work.

L - \$.35      M - \$.25      S - \$.15      Bblts - 25/\$.50

BINGO (Summerville '59) 254

85 Days

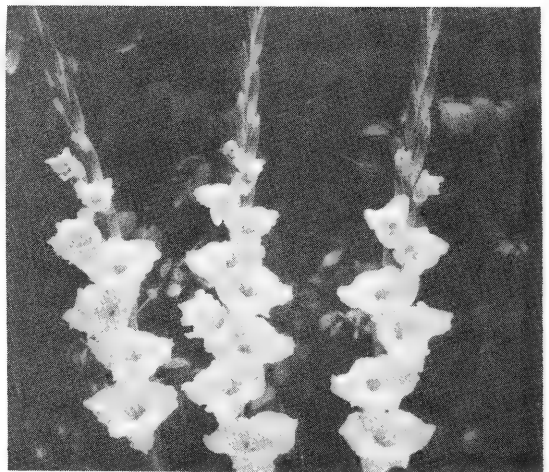

One of the top rated 1959 introductions as reported by the NAGC Symposium committee. Bingo has been reclassified from light red to medium rose. Already a big winner and should do even better in its new class. The color is medium rose red with a hairline edge around each petal. Combines miniature beauty and usefulness with an ability to win on the show table. Miniature Champ at the 1956 Eastern International. Opens 8 3" nicely ruffled florets in perfect placement on an ideal miniature type spike. Seems to have met with universal approval.

L - \$1.00      M - \$.75      S - \$.50      Bblts - 10/\$1.00

CAMELOT (Larus '59) 244

70 Days

Rated one of the top miniatures of 1959 by the miniature Symposium. We consider Camelot to have at least as good and possibly a greater show potential than its already famous half sister Parfait. Opens 7 to 11 of its 19 to 23 buds on ideal miniature type spikes. Heads run 22" to 25" with good straight stems. Color value is excellent. We have had 6 miniature champs with Camelot.

*Camelot*

L - \$.75      M - \$.50      S - \$.25      Bblts - 10/\$.75

CANAHRI (Hartman '56) 214

78 Days

Nicely ruffled light yellow capable of opening up to 11 formally placed 3" florets on a head of good length with as many as 23 buds. One of the best half dozen exhibition type miniatures; has already won many top awards. Stock limited.

L - \$.40                      M - \$.30                      S - \$.20                      Bblts - 15/\$.50

CHOCOLATE CHIP (Fairchild '58) 290

75 Days

Heads its class in the latest NAGC Symposium rating -- a remarkable accomplishment for a glad of such recent introduction. Chocolate Chip is a dark brown glad in the style of Atom even to the hairline edge. Opens 6 or 7 in typical miniature placement on a slender stem with a head of 19". An unusual color that will be of great value to arrangers.

L - \$.50                      M - \$.40                      S - \$.25                      Bblts - 10/\$.50

CORVETTE (Butt '57) 243

70 Days

Reclassified from scarlet to deep pink but still a big winner. Makes long miniature type spikes with as many as 10 formally placed 3" florets open at once. Lightly ruffled scarlet pink with a darker throat. Really fine and one you should have.

L - \$.40                      M - \$.30                      S - \$.20                      Bblts - 15/\$.50

DEMI-TASSE (Larus '58) 286

75 Days

In a class where there are very few glads in the smaller sizes. The lightly ruffled 3 1/4" florets are a dusty rose brown with a cream throat. The color is clean and most attractive. Opens 5 to 7 on spikes of 16 to 19 buds. Flowerheads average 20" to 23". Particularly useful for decorative purposes but will also win at the shows -- probably the best in its class. Grows well from all sizes.

L - \$.50                      M - \$.35                      S - \$.25  
Bblts - 10/\$.50

DOMINO (Larus '59) 201

65 Days

Rated the number one miniature introduction of 1959. We stated in our introduction last year that Domino would win if planted to hit the shows -- it won at least two championships that we know of. Creamy white with a cream throat on which there is an attractive lavender rose blotch. Florets are wide open, round, ruf-

*Domino*

fled and needlepoint. Makes very precise spikes with 7 to 9 of its 18 buds open at once on heads of 21" to 25".  
L - \$.75            M - \$.50            S - \$.25            Bblts - 10/\$.75

DUSKY LAD (Roberts '58) 291 70 Days

This very unusually colored and shaped glad should be a real attraction to those who have an eye for something off the beaten path. Shades of mulberry and mahogany are overlaid with a haze of smokey lavender with a large yellow throat blushed with salmon scarlet in the center. Opens 6 or 7 on a thin stem that frequently crooks.

L - \$.75            M - \$.50            S - \$.25            Bblts - 10/\$.50

ELITE (Tyndall '59) 201 75 Days

One of the best new miniatures of 1959 or any other year. Opens up to 10 formally placed florets on a 20 bud flowerhead. Almost exactly a miniature reproduction of Crusader. Florets are beautifully ruffled white with a light purple blotch.

L - \$1.50            M - \$1.00            S - \$.60            Bblts - 10/\$1.50

FAIRYWAND (Roberts '57) 361-261 65 Days

Light bluish lavender with a large yellow throat. Rather attractive and in a class where competition is weak. Opens 6 on a straight medium height plant.

L - \$.50            M - \$.35            S - \$.25            Bblts - 15/\$.50

FLIRT (Howell '55) 210 65 Days

Lorelei in miniature! Opens 5 to 7 beautifully ruffled cream florets on a 15 bud spike of good overall proportions. The best glad in its class.

Any size - \$.35 Bblts - 15/\$.50

FRILLS (Larus '59) 214 70 Days

Very clean light yellow with deep yellow throat petals. Opens 5 to 7 heavily ruffled florets on a head of 18" to 23" with 18 to 21 buds. Florets are of heavy substance and are exquisitely formed. A good show glad, and undoubtedly the best yellow miniature cut flower on the market.

L - \$.75            M - \$.50            S - \$.25            Bblts - 10/\$.75

GOLDETTE (Butt '54) 214 80 Days

Goldette is one of Butt's very best. We consider it better than the newer Green Thumb -- it has less extraneous color and actually has considerably more green in it. Heads run about 23" with 20 buds and up to 9 open in double row placement. Florets are ruffled and wide open.

L - 10/\$2.00    M - 10/\$1.50    S - 10/\$1.00    Bblts - 50/\$.50

GREEN THUMB (Butt '56) 214

60 Days

Very nice small greenish yellow with no markings, although it will sometimes show a pink flush if left in the sun. Florets are ruffled and of heavy substance. Opens up to 8 of its 17 or more buds. Very good grower that occasionally goes oversize.

L or M - 10/\$2.00

S - 10/\$1.00

Bblts - 25/\$.50

HEIDI (Harris '56) 214

58 Days

Large bulbs of Heidi produce spikes that are hard to beat. Easily opens 8 or 9 of its 19 buds on a long wiry head. Never any tendency to go oversize.

L or M - \$.35

S - \$.20

LIFE (Butt '56) 236

70 Days

New clear light red with a clean yellow throat -- a miniature ruffled Beacon. Misplaces some, but generally makes a nice 18 bud spike with 5 to 7 open. Very striking.

L - \$.30

M - \$.20

S - 10/\$1.00

PARFAIT (Larus '58)  
231

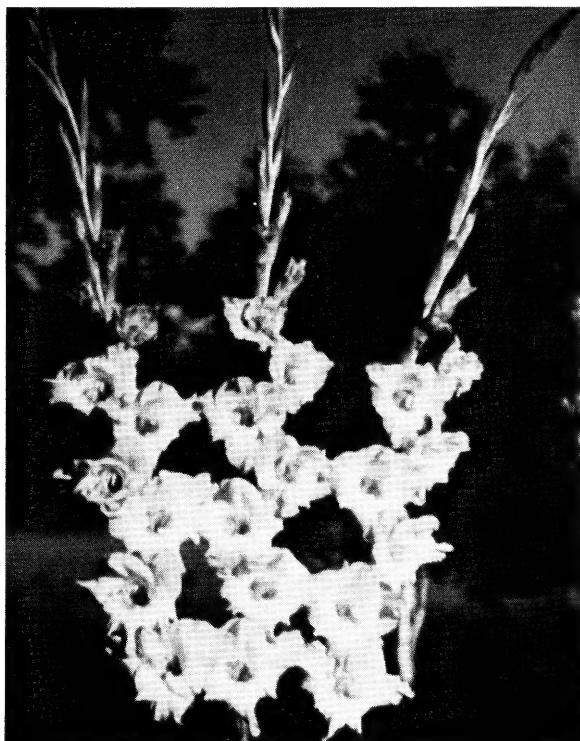

78 Days

One of the greatest show glads of all time regardless of size. Has won several grand championships as well as numerous miniature champs. The color is medium salmon with a small pale red blotch on a cream throat. Opens 6 to 10 in perfect placement on heads of 22" to 26" and 18 to 23 buds. Leads its class by a wide margin in the latest official ratings. As consistent as any glad you'll ever grow.

L - \$.60

M - \$.40

S - \$.25 Bblts - 10/\$.60

*Parfait*

PINT SIZE (Evans '54)

160

70 Days

The leading variety in its class and division opens 8 formally placed 2" florets on a well balanced little spike. Color is a bit

muddy, but, nevertheless, a must for the exhibitor of small glads.  
L - 10/\$2.00    M - 10/\$1.50    S - 10/\$1.00    Bblts - 25/\$.50

POLAR CUB (Evans '53) 200 85 Days

An extremely vigorous grower. Makes wiry stems with heads of 22" to 30". Spikes from large bulbs will average about 23 buds with 10 open and 8 in color. Placement is quite formal. Plain petaled and somewhat recurved with no tendency to go oversize.  
L - 10/\$2.00    M - 10/\$1.50    S - 10/\$1.00    Bblts - 25/\$.50

TOYTOWN (Butt '54) 226 60 Days

Our favorite of all the Butt miniatures. Similar in color to Twinkles but with an unmarked deep yellow throat and no tendency to face up. Basic color is orange scarlet with a yellow throat providing a beautiful contrast. Heavily ruffled.  
L - 10/\$2.00    M - 10/\$1.50    S - 10/\$1.00    Bblts - 20/\$1.00

ZIG-ZAG (Pierce '54) 251 85 Days

As perfect a spike maker as you could wish for! Zig-Zag makes long heads with 9 of 23 buds open. Color is light red with a peppered yellow throat. Has won several grand championships in competition with the larger varieties.  
L - 10/\$2.00    M - 10/\$1.20    S - 10/\$.80    Bblts - 25/\$.50

## The All Americas

Royal Stewart - Giant Exhibition Red

Appleblossom - Large white with rose halo

Caribbean - Medium size, ruffled blue
